Research collaboration agreement

Date:

This document is a collaboration agreement between the Norwegian Bioinformatics Platform (NBF) and

specifying the extent and funding of our common research project. It does not legally bind the involved parties beyond the transfer of funding and work description, as specified in this document. By signing this Research Agreement, the following standards are to be adhered to:

- Standard Conditions for the execution of assignments (see attached document)
- NeLS: Norwegian e-infrastructure for Life Sciences - Technical overview for users

The Norwegian Bioinformatics Platform should be mentioned in *acknowledgements* if the work results in a publication. If the bioinformatics personnel contribute with their scientific knowledge to solve the scientific questions, they should be co-authors according to the *"ICMJE Uniform Requirements for Manuscripts Submitted to Biomedical Journals concerning Authorship and Contributor ship"* (Vancouver rules).

Project Name

Project description

Work description

Time Schedule and Cost

NBF operates with both a flat rate and a standard hourly rate depending of the nature of the collaboration. For *research collaboration*s, the hourly rate is 750 NOK/h. If the service or collaboration under this agreement is subject to the Act relating to Value Added Tax, the applicable VAT rate will be added to the price.

Expected duration of the project: start: end:

☐ Fixed price: Add VAT (25 %) no ◉ yes ○ Total price: 0.00

OR

☐ Hourly rate: Maximum number of hours agreed for this research project:

Add VAT (25 %): no ◉ yes ○ Total price: 0.00

The collaborator must be aware of that the cost per project may increase if additional work is required.
